

3D-printed feed bowls | Innovative feeding solutions from RNA's short lead time portfolio

RNA's feeding systems manufactured using 3D printing technology are quickly available and inexpensive to purchase. We have developed a standard program for some high-volume parts.

Characteristics of these feeding systems:

- Short and predictable delivery time (6-8 weeks)
- Attractive fixed prices
- Reproducible design for follow-up orders
- High wear resistance
- Modern look

Part diameter (mm)	Length (mm)	Rating (parts/min)
3	5-20	100
3	20-40	60
4	6-20	100
4	20-40	60
5	8-20	100
5	20-40	60
6	8-20	100
6	20-40	60
8	12-50	60-100

Screw size	Length (mm)	Rating (parts/min)
M3	8-26	60
M4	10-26	60
M5	10-26	60
M6	12-26	60

Part diameter (mm)	Cord thickness (mm)	Rating (parts/min)
4-8	1-2	100
8.1-12	1.5-2.5	100
12.1-22	1.8-4	100

Part diameter (mm)	Size SF	Rating (parts/min)
2	100	100
2.5	100	100
3	100	100
4	200	100
5	200	100
6	200	100
7	200	100
8	200	100

Parts diameter (mm)	Part thickness (mm)	Rating (parts/min)
7-8	0.5	200
8-9	0.8	200
9-10	1	200
10-12	1.6	200
12-14	1.6	160
14-16	1.6	160
